

Let HandiSolutions, Inc. help minimize your closet clutter by getting those coats into another area of storage with use of the Handi Coat Rack product.

Strong and durable, the assembly attaches into the HandiWall™ via use of the two brackets, a hanging bar, and two end caps, allowing you to store coats in your garage or wherever you have HandiWall™ displayed.

The product is offered as a HSCR, which comes one set per carton. A set includes one hanging bar, two end caps, and two brackets. The second offering is shipped in bulk (HSCRB), coming in three separate packages containing ten Coat Rack Assembly sets (ten hanging bars, twenty end caps, and twenty-four brackets).
