

HandiSolutions, Inc. prepares your customers for those romantic evenings, family gatherings or business entertainment by creating a viable storage opportunity for their precious wines and other assorted bottled beverages.

The Wine Rack (HSWR) comes packed six per carton, and holds six bottles as it attaches directly in the HandiWall™. Better yet, the accessory itself can attach to a second unit parallel to it to add more storage while also adding stability overall.

Possible other venues aside from the garage include wine cellars, pantries, areas of the kitchen, and even laundry rooms, just to name a few.
